Kaa Cub Scout Pack

2018 / 19 Report

The Cubs have had an exciting programme which has allowed them to experience many new activities as well as improving their team working skills in the process.

The Cubs have enjoyed an exciting and varied programme over the past year and they have an equally exciting programme to look forward to in the coming months. We continue to enjoy a full pack and despite a number of our cubs moving up to scouts a number of new beavers have joined us.

In May of last year the cubs were lucky enough to get the opportunity to try lawn bowls at Westhill bowling club. We were taught how to hold and steer the bowls before trying a few games and challenges.

June 2018 - During summer last year the Kaa pack returned to RGU sports to try rock climbing and bouldering. As ever this activity was hugely popular and for some it was their first time rock climbing.

January 2019 - We started the year with work on the Pioneering badge. The cubs worked in their sixes to build a platform to keep them from falling into the lava below! This exercise taught the cubs about knot tying and working together as a team.

February 2019 - We were lucky to be visited by one of Westhill's beaver leaders for a demonstration on Dry ice. The cubs were given the opportunity to hold dry ice bubbles and take part in several experiments.

March 2019 - Another badge we have been working towards is the Naturalist badge. The cubs have been on several walks to Arnhall moss to witness the changes that take place during different seasons. The cubs enjoy the opportunity to get out and about and explore Westhill.

As ever the cubs have played plenty games in between badge work. Our favourites include Bucket ball, over and under, and the peg game. We have been allowing the sixers and seconders to run games as part of their leadership badge. Over the coming months we hope to undertake more outdoor activities and make the most of the light evenings.
